Vocabulary List

We will assume that you know, and can answer questions about, the terms that appear in the textbook and readings or that have appeared in lecture.

The following is a list of some additional words you may find on the quiz. It does not include all of the words on the quiz, and some of these words will not appear on the quiz. Words that have been specifically defined or discussed in lecture are not listed. Familiarity with the words on the list will help you move more quickly through the quiz. You should also be familiar with their plural form, past tense form, etc. If you already have a good understanding of the common meaning of these words, then there is no need to look them up in a dictionary, or spend any additional time studying them.
