APS 111 & 113

2014 – Midterm Vocabulary List and information

Information: The following instructions will appear on the first page of the midterm test.

*This is a 70-minute midterm exam. There are **36** questions on the test. It is a multiple-choice midterm and is closed book. No aids are permitted. Read each question thoroughly and provide the answer on the answer sheet. Be sure to fill out the answer sheet clearly with no overlaps. Fill out the answer sheet using a pencil. Erase any errors completely. One answer per question and each question is worth 1 mark. There is no deduction for wrong answers. Select the answer that best satisfies the question. You are not required to hand in the exam question booklet. You may tear off the appendix to ease the answering of questions.*

Case study: The case study will appear in an appendix to the test. The case study deals with a label adhering problem. We are assuming you have read and understood everything in the case study. If you have questions about the case study, please ask on Piazza before the exam. No questions about the case study will be answered during the exam. We do not expect you to have formulated a solution for this problem.

Vocabulary: We will assume that you know (and can answer questions about) the terms that appear in the textbook, case study and readings, or that have appeared in lecture.

The following is a list of some additional words you may find on the Midterm. It does not include all of the words on the exam, and some of these words will not appear on the exam. Words that have been specifically defined or discussed in lecture or readings are not listed. Familiarity with these words will help you move more quickly through the exam. You should also be familiar with their plural form, past tense form, etc. If you already have a good understanding of the common meaning of these words, then there is no need to look them up in a dictionary, or spend any additional time studying them.

ability	application	break	common	cover
abstract	apply	budget	company	create
acceptable	appropriate	buy	comparison	credibility
accommodate	arise	cardboard	completion	credit
activate	aspects	cause	concepts	current
active	assignments	characteristics	conditions	customer
activity	assist	check-in	conflict	database
actually	attach	choice	connection	deadline
